DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 4-14, 16-27, 30-44 and 46-51 allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicants' amendment to claims along with remarks filed on 10/06/2005 were carefully reviewed. Also, the update searches based on Applicants' argument were performed. The new found references with the most related to Applicants' claimed invention are Jalloul et al. (US Pat. #: 6,256,338) and Jalloul et al. (US Pat. #: 6,104,747). Jalloul et al. references along with cited prior art of record, alone or in combination, fails to clearly teach or fairly suggest the features that applicants argued in their remarks on page 12. said features are as followings:

Prior art of record fails to clearly teach "...using a Doppler frequency to determine a shifting rate of a searcher window to determine a shifting rate of that searcher window in order to reduce the delay error between a mean CIR delay and a desired delay position" as recited in each of the amended independent claims 1, 14, 25 and 39.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
